

6 Incredible benefits of living in a private home in Merida

The benefits of living in a private home in Merida are many. Last week I had the opportunity to meet and help a beautiful Guadalajara family in search of their new home.

They are dad, mom with two children of 11 and 9 years who are planning to come to live in Merida, with the sole interest of living within a Private, or Cotos, as they call them.

Your reason is simple ...

"We want our children to grow as we did: to play in the street, to have their best friends as neighbors and to be at home knowing that they are safe and secure"

Mérida is one of the quietest cities in the country and has always been. I remember that when we were kids, we played in the street, we skateboarded, we rode bicycles, we played "burned", or a little shell, and a lot of other things.

The reality is that, now we are a little more apprehensive, because we are racing for work and laps,

as well as for the news we read from other parts of the country. We prefer that our children stay in a place closer to our sight.

Visiting with them [several options of private subdivisions in Merida](#), I can say that security is only the number one of the list of benefits, there are many more:
